**Do you have general comments about the scope of Washington's updated wolf conservation and management plan?**

I am deeply concerned with the negative impacts wolves will have on Livestock and deer/elk herds. As we all know much of the budget for WDFW comes from fees from hunters and fishermen/women. If there is a noticeable decline in success rate, I can see many people not purchasing tags in the future. Already we've seemingly taken a step in the direction of herd declines since the law prohibits using dogs to hunt cougars. That's all I have. Hopefully you will keep us all in mind when developing policy that affects us.
