Suburban

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf-livestock conflicts

Wolf hunting

Land management

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

I would like the state of Wa stop letting ranchers graze on public lands and spread out into wolf territory then punish the wolves when they kill livestock for food. It would cost less money to replace the livestock than to kill a wolf or whole families. Fish and wildlife should also not be employing hunters. Fish and wildlife's goal should be helping animals and reducing conflicts not killing!
