

Kristine MacDonald

What is your gender?

Female

Age?

1

County (or Counties) of Primary Residence?

Pacific

Residential setting:

Rural

Do you identify yourself as any of the following?

Outdoor Recreationist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf classification/status

Wolf management areas

Wolf-livestock conflicts

Wolf-ungulate interactions

Wolf interactions with other species

Wolf-human interactions

Wolf hunting

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

Please, let the wolves live in peace. They are a worthy animal and ancestor to our companion canines. They keep deer populations, which have surged, at manageable levels and have contributed to environmental restoration of plant species in Yellowstone. I believe that ranchers exaggerate the problems and that what problems there actually are can be dealt with in a non-lethal manner. We have exterminated and manipulated their ancestors and it is time to let them be.
