**What is your gender?**

Female

**Age?**

53

**County (or Counties) of Primary Residence?**

Park

**Residential setting:**

Rural

**Do you identify yourself as any of the following?**

Outdoor Recreationist

**WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.**

**Please review this list and add other topics, or items that fit under these headings.**

**Please check the topics you view as most important.**

Wolf management areas

Wolf-livestock conflicts

Wolf-ungulate interactions

Wolf interactions with other species

Wolf hunting

Land management

**Do you have general comments about the scope of Washington's updated wolf conservation and management plan?**

Yellowstone wolves are the perfect example of the massive lies and failure of the wolf 'reintroduction'!! I live just outside the park and have watched the largest elk herd in the world... not just the United States... the world be decimated by the wolves while the 'enviromentalists' and 'conservationists' lied about the wolf numbers and their massively destructive impact on the elk AND the economy!! It's not only disgusting it's illegal and now they're trying to 'reintroduce' them every where else! It HAS to stop!! They need to be hunted back down to the originally agreed on numbers!! You people only care about the vermin wolf and couldn't care less about our elk, moose, deer or domestic pets. And now that they've killed everything here they're moving south to the Wind Rivers and east to the Big Horns! You've ruined our state and now you're taking aim at WA! It's disgusting! We can only hope WA has the backbone to put a stop to it!
