Wolf management areas

Wolf-ungulate interactions

Wolf interactions with other species

Wolf hunting

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

It's time to manage these predators like all other predators in NE WA. There are too many packed into a small portion of the state and it's causing drastic drops in Mule Deer, Elk and Moose in wild lands. They either are killed off or chased down into low land private areas for safety.
