

John Kane-Ronning

What is your gender?

Male

Age?

62

County (or Counties) of Primary Residence?

Whatcom

Residential setting:

Suburban

Do you identify yourself as any of the following?

Environmentalist

Outdoor Recreationist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf management areas

Wolf-livestock conflicts

Wolf-ungulate interactions

Wolf interactions with other species

Wolf-human interactions

Wolf hunting

Land management

Habitat connectivity

Information and education

Research

Reporting and evaluation

Goals objectives strategies and tasks

Economic analysis

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

We need to consider all of the impacts including grazing allotments, loss of habitat, environmental impacts caused by grazing not only on wolf habitat but also on the flora and fauna of the entire ecosystem. Are ranchers really paying an appropriate price for grazing considering all of the damage cattle do to an ecosystem including erosion and degradation of water quality.
