**Do you have general comments about the scope of Washington's updated wolf conservation and management plan?**

I have watched the destruction of the deer populations of northern Stevens (Wedge GMU) county over the last 25 years by a non native wolf species and now see cattle on or near the highway on Boulder Pass on every trip over it lately seemingly due to their fear of predators. They used to hang out in the wilderness areas. I think this entire experiment has been a mistake by the USFWS and WDFW.
