

Sue Jarrard

What is your gender?

Female

Age?

52

County (or Counties) of Primary Residence?

COWLITZ

Residential setting:

Rural

Do you identify yourself as any of the following?

Environmentalist

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

Currently, Washington state does not have a wolf conservation plan, they have a wolf slaughtering / removal plan. Washington state needs to implement means of deterrent as other states with wolves and cattle have done so that wolves can coexist with humans. Cattle ranchers need to graze their cattle in other areas other than those known with wolf populations. Federal and state lands are intended for wildlife and outdoor recreation. Washington state needs to stop catering to the cattle ranchers industry and manage public lands for what the people have set forth, wildlife and outdoor recreation.
