

Dean McKinnon

What is your gender?

Male

Age?

36

County (or Counties) of Primary Residence?

Stevens

Residential setting:

Rural

Do you identify yourself as any of the following?

Environmentalist

Hunter

Outdoor Recreationist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf classification/status

Wolf management areas

Wolf-ungulate interactions

Wolf hunting

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

In Northeast Washington we are far beyond wolf "recovery" levels. Wolf numbers are too high, their impact is getting heavier each year, yet we are being held hostage by recovery goals for western WA. This is insane. We need to hunt and manage wolves here now, regardless of wolf recovery on the west side. Our ungulates need help. WDFW is allowing our herds to be destroyed by excessive numbers of predators, and its a travesty. We need serious wolf and cougar management immediately.
