

gordon campbell

**What is your gender?**

Male

**Age?**

54

**County (or Counties) of Primary Residence?**

Collier

**Residential setting:**

Suburban

**Do you identify yourself as any of the following?**

Environmentalist

Hunter

Outdoor Recreationist

**WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.**

**Please review this list and add other topics, or items that fit under these headings.**

**Please check the topics you view as most important.**

Wolf conservation and monitoring

Wolf classification/status

Wolf-ungulate interactions

Wolf interactions with other species

Wolf hunting

Habitat connectivity

Information and education

Economic analysis

**Do you have general comments about the scope of Washington's updated wolf conservation and management plan?**

Please allow a natural recovery and or reintroduction process while not allowing hunting statewide. The wolf is a highly intelligent, social animal that should be managed much differently from traditional game animals. Consider the original distribution of the wolf, its role in the ecology and the possible huge economic benefit of an established population (think Gardiner, MT and other similar towns).
