Information and education

Please list other topics here. The next page provides space for general comments on the scope of the plan.

The importance of preserving species, environments and ecologies;  
The need to restore apex predators

**Do you have general comments about the scope of Washington's updated wolf conservation and management plan?**

The destructiveness and economic problems of cattle grazing on public land must be examined from the perspective of the need to preserve as much as possible the ecology of the state of Washington.
