

Gary Ingram

What is your gender?

Male

Age?

69

County (or Counties) of Primary Residence?

Whitman

Residential setting:

Rural

Do you identify yourself as any of the following?

Environmentalist

Outdoor Recreationist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf classification/status

Land management

Habitat connectivity

Information and education

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

I believe wolves should be controlled if they repeatedly come into conflict with livestock on PRIVATE land. Livestock on federal/state land are there at the livestock owners risk. Furthermore, livestock on federal/state land often cause substantial damage and their numbers should be GREATLY reduced.

In wilderness let nature control wolf population.
