

Patti Mickelsen

What is your gender?

Female

Age?

68

County (or Counties) of Primary Residence?

Orange

Residential setting:

Suburban

Do you identify yourself as any of the following?

Environmentalist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf classification/status

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

It is imperative that you focus on wolf preservation, and not special interests! Predation by wolves on farm animals is NOT a reason to kill wolves. There is NO reason to kill wolves. We are intruders in their habitat, so we have an obligation to care for them since we have been the most destructive species on this planet. We MUST protect and value our apex predators, as they are VITAL to a healthy ecosystem. Do not be swayed by ignorant people who are greedy and only care for their own self-interests.
