WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf-livestock conflicts

Wolf-ungulate interactions

Wolf hunting

Land management

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

Please make decisions based on science and not based on emotions of people that are not informed. The wolf management plan should be made to benefit the ungulate populations that have been decreasing and the people that are being directly effected by wolves in their area.
