

William Reilly

**What is your gender?**

Male

**Age?**

40

**County (or Counties) of Primary Residence?**

King

**Residential setting:**

Suburban

**Do you identify yourself as any of the following?**

Environmentalist

Hunter

Outdoor Recreationist

**WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.**

**Please review this list and add other topics, or items that fit under these headings.**

**Please check the topics you view as most important.**

Wolf conservation and monitoring

Information and education

Goals objectives strategies and tasks

**Do you have general comments about the scope of Washington's updated wolf conservation and management plan?**

The scope should be more focused on conversation and re-population and less on "management". Wolf - livestock interactions have been over emphasized in the ongoing discussions, and relatively speaking, such discussion should only elicit a small proportion of the conversation considering the existing wolf population kills an extremely small amount of the existing livestock population relative to the total amount of livestock in the state.
