What is your gender?

Male

Age?

60

County (or Counties) of Primary Residence?

Okanogan

Residential setting:

Rural

Do you identify yourself as any of the following?

Environmentalist

Outdoor Recreationist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf-livestock conflicts

Land management

Habitat connectivity

Information and education

Research

Reporting and evaluation

Costs and funding priorities

Economic analysis

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

It is a hope of mine for myself and family to be able to observe wolves here in the wild someday. Keystone species!

WDFW mission is fish and wildlife. Fish includes more than salmon and trout. Wildlife is more than deer and elk.

Should not include the production of cattle on public land that is for wildlife and recreation.

The amount of our money you spend on collaring and then killing wolves could be spent on buying out ranchers. It would be cheaper in the long run and better for the environment. Thanks!
