What is your gender?

Male

Age?

65

County (or Counties) of Primary Residence?

OKANOGAN, FERRY

Residential setting:

Rural

Do you identify yourself as any of the following?

Environmentalist

Hunter

Outdoor Recreationist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf classification/status

Wolf management areas

Wolf-livestock conflicts

Wolf-ungulate interactions

Land management

Habitat connectivity

Information and education

Research

Reporting and evaluation

Goals objectives strategies and tasks

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

Wolves need some core areas where they are not in conflict with grazing allotments and cows. In my area the Kettle Range would be the best choice for this. I believe that the whole Nat. forest from the Kettle Range to the Okanogan river is open to grazing (under the allotment program).
