WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf-livestock conflicts

Wolf hunting

Land management

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

I think the survival and recovery of wolves should be the most important aspect of any plan. I think that cattle use of federal lands and the impact in wolf territory needs to be addressed so that wolves are not killed for cattle being allowed to graze in wolf territory.
