

Paul Thomson

What is your gender?

Male

Age?

57

County (or Counties) of Primary Residence?

Clark

Residential setting:

Suburban

Do you identify yourself as any of the following?

Environmentalist

Hunter

Outdoor Recreationist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf classification/status

Wolf management areas

Wolf-livestock conflicts

Wolf-ungulate interactions

Wolf interactions with other species

Wolf-human interactions

Land management

Habitat connectivity

Information and education

Research

Reporting and evaluation

Goals objectives strategies and tasks

Costs and funding priorities

Economic analysis

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

I believe that wolf hunting should be extremely limited and tightly controlled if allowed at all until it is proven that they have recovered enough for hunting to be sustainable. If and when that time comes hunting should only be allowed in areas where they are having livestock kill issues. It should by no means be allowed to be turned into another way for this agency to generate income by selling tags indiscriminately.
