What is your gender?

Female

Age?

34

County (or Counties) of Primary Residence?

Mercer

Residential setting:

Suburban

Do you identify yourself as any of the following?

Outdoor Recreationist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf classification/status

Wolf management areas

Wolf-livestock conflicts

Wolf-human interactions

Wolf hunting

Land management

Habitat connectivity

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

Wolves should not be hunted, killed or trapped. These highly intelligent, social species rely on all members of a pack for survival and removing one can hurt the whole pack. Also, humans must take on the responsibility of avoiding wolf human interaction by keeping a distance and staying out of their habitat. Humans don't own the earth, ranchers do not need to constantly expand onto animals habitat. Maybe if wolves had some space, wolf-human conflict wouldn't happen
