**Do you have general comments about the scope of Washington's updated wolf conservation and management plan?**

Deer are gone maybe it's a combo of bad winters and blue tongue or whatever but where I used to hunt and see 40-50 deer in a day I see ZERO. Lots of wolf tracks and wolf scat tho. I am a long time hunter (since 1991) and this past two years were worst ever for deer hence me not even buying a license and if you think I'm alone wait people are fed up with the management of wild life in Wa state. Check some hunting forums here in Wa if you want to see what people are saying about hunting and wolves here in Wa. Used to be great hunting now I'm not wasting my money for a license so I can take my gun for a walk in the woods.
