**What is your gender?**

Female

**Age?**

73

**County (or Counties) of Primary Residence?**

King

**Residential setting:**

Urban

**Do you identify yourself as any of the following?**

Environmentalist

Outdoor Recreationist

**WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.**

**Please review this list and add other topics, or items that fit under these headings.**

**Please check the topics you view as most important.**

Wolf conservation and monitoring

Wolf hunting

Translocation

Habitat connectivity

**Do you have general comments about the scope of Washington's updated wolf conservation and management plan?**

I am absolutely opposed to the hunting of wolves in WA state. I am also opposed to ranchers grazing their cattle / sheep in prime wolf habitat, then complaining about wolf predation on their stock. This is becoming ridiculous.....why return a species to it's original habitat, then allow the slaughter of that species?

You have already slaughtered whole packs of wolves at the behest of ranchers and it is absolutely sickening. There is no shortage of cattle, but there is a definite shortage of wolves. And stop trying to save wild ungulates for human hunters only by killing predators.
