WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf classification/status

Wolf-ungulate interactions

Wolf hunting

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

I've recreated and hunted in the north Deer lake area(ea wa) for 20 year. In those 20 years the ungulate population is noticeably declining. Presently, the area is like a ghost town, ungulates are almost non existent. Wolf tracks fill just about every logging road. It's time to open up a special permit hunting system to balance wolf/prey numbers!!

Thank you,
