Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

The fate of the environment is the defining issue of our time. Wolves play an irreplaceable role in sustaining their ecosystem. It's completely premature to discuss post-delisting wolf management. The Department should heed the Governor's advice and focus on fixing its broken lethal protocol to effectively resolve wolf-livestock conflicts without annually killing a large portion of the state's wolf population at the behest of the commercial livestock industry.
