**Do you have general comments about the scope of Washington's updated wolf conservation and management plan?**

Yes, we're Oregonians, not living in your State at this time (though we have in the past); but we are close enough to be affected by your decisions.

We are disappointed that Washington has deliberately destroyed entire wolf packs to satisfy the cattle industry. We value wolves--as sentient animals and as apex predators of entire ecosystems--more than we crave ever-cheaper hamburger. We hope and expect that you will come to the realization that discussing post-delisting wolf management is premature; and that Governor Inslee's advice (no matter how late-to-the-table) to focus on resolving wolf-livestock conflicts without annual killing is your proper path forward.
