

Gina McCaughran

**What is your gender?**

Female

**Age?**

59

**County (or Counties) of Primary Residence?**

Snohomish

**Residential setting:**

Rural

**Do you identify yourself as any of the following?**

Outdoor Recreationist

**WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.**

**Please review this list and add other topics, or items that fit under these headings.**

**Please check the topics you view as most important.**

Wolf conservation and monitoring

Wolf classification/status

Land management

Habitat connectivity

Information and education

Research

Reporting and evaluation

Please list other topics here. The next page provides space for general comments on the scope of the plan.

Wolf preservation

**Do you have general comments about the scope of Washington's updated wolf conservation and management plan?**

I believe wolves are an incredibly important species and predator,. Keeping a good balance of predator to prey will keep wildlife healthy and populations controlled. Cattle are an environmental disaster, we need less cattle and more large predators to keep the environment healthy and balanced. Cattle ranching will become obsolete as people become more aware of the devastation cattle have on the environment and how unhealthy beef is for your health. Wolves should never be sacrificed for cattle!
