

Michael Breslow

What is your gender?

Male

Age?

59

County (or Counties) of Primary Residence?

Spokane

Residential setting:

Rural

Do you identify yourself as any of the following?

Hunter

Outdoor Recreationist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf classification/status

Habitat connectivity

Information and education

Research

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

Washington is erring by allowing ranchers who use public lands to tell the State to prioritize the ranchers' profits over the integrity of the ecosystem. Wolves are more important than cows. We shouldn't have all those cows on public lands- they degrade the health of the ecosystem. Wolves improve the health of the ecosystem. Chronic wasting disease will spread without wolves to cull sick animals from the environment
