**Do you have general comments about the scope of Washington's updated wolf conservation and management plan?**

Dear WDFW,

Your repeated action to kill wolves especially collared wolves, especially from helicopter is absolutely unacceptable, morally corrupt and environmentally unsustainable.

Stop lethal removal immediately.

Remove livestock from public land if the producer have issues with wolves.

Protect wolves with every resource you have like every other decent country Wildlife Service does.

I appreciate your consideration.

Sincerely,

Zita Fekete
