

Frank Palmer

**What is your gender?**

Male

**Age?**

70

**County (or Counties) of Primary Residence?**

Stevens

**Residential setting:**

Rural

**Do you identify yourself as any of the following?**

Hunter

Outdoor Recreationist

**WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.**

**Please review this list and add other topics, or items that fit under these headings.**

**Please check the topics you view as most important.**

Wolf-livestock conflicts

Wolf-human interactions

Wolf hunting

**Do you have general comments about the scope of Washington's updated wolf conservation and management plan?**

The current management plan is not working. My feeling is that the wolf population is by far so much greater than WSDFW is reporting. I personally have seen 6 wolves in a very small area in the past few months. Our winters have been gentle on the deer and elk compared to years past and yet our deer and elk heard's are pathetically low. It is an undeniable fact that the wolves an cougar have created this problem. Hound hunting must be re introduced to get the wolf and cougar population back under control.
