**Do you have general comments about the scope of Washington's updated wolf conservation and management plan?**

After summering in MT for 20 years, and after talking to farmers and ranchers, I am ok with wolf management, but Not trapping, poisoning or Arial shooting, I believe you want to keep wolves weary of man for their benefit. We have many new wolf packs in North West Montana. So we need a happy medium. It seems to be working in Montana. I have been a member of wolf haven for many years.
