What is your gender?

Female

Age?

64

County (or Counties) of Primary Residence?

Douglas

Residential setting:

Suburban

Do you identify yourself as any of the following?

Environmentalist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf-livestock conflicts

Land management

Habitat connectivity

Research

Reporting and evaluation

Goals objectives strategies and tasks

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

I know that there are things that ranchers can do to decrease the chance of wolf/cattle interaction. I understand that there are ranchers that refuse to take these steps. If ranchers refuse to use the adaptations available to them, then we (the state) should not have to pay for lost cattle.

Having a healthy population of wolves is more important than a steak dinner.
