What is your gender?

Female

Age?

67

County (or Counties) of Primary Residence?

King

Residential setting:

Urban

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf-livestock conflicts

Wolf interactions with other species

Wolf-human interactions

Land management

Habitat connectivity

Research

Reporting and evaluation

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

The wolves were here first. We need to set their wellness as a species as a priority. Read the Wolf's Tooth about keystone predators, trophic cascades and biodiversity by Cristina Eisenberg and you will appreciate the importance of keystone predators. Find a way to assure public lands are prioritized for biodiversity, not individual human business benefit.
