

Antony Sirgedas

What is your gender?

Male

Age?

59

County (or Counties) of Primary Residence?

Pierce

Residential setting:

Rural

Do you identify yourself as any of the following?

Environmentalist

Hunter

Outdoor Recreationist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf management areas

Wolf-ungulate interactions

Wolf interactions with other species

Wolf hunting

Information and education

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

Wolf populations need to be managed taking into account their effect on other wildlife, habitat carrying capacity, their impact on domestic residential and commercial needs, and the cost of managing populations. More weight needs to be given to the opinion and needs of those living with wolves than those who never deal with them or groups from outside of the state.
