Urban

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf classification/status

Wolf-livestock conflicts

Wolf interactions with other species

Wolf-human interactions

Land management

Information and education

Research

Reporting and evaluation

Goals, objectives, strategies, and tasks

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

I would like us to find non-lethal ways of dealing with wolf related concerns. I would also like us to think more often about how WE are contributing to the concerns that we have, instead of always thinking the wolves are the problem. They are wild animals who are going to behave as such. We have more control over our actions that could contribute to or alleviate those concerns.
