

Kao Saephanh

What is your gender?

Male

Age?

29

County (or Counties) of Primary Residence?

King

Residential setting:

Suburban

Do you identify yourself as any of the following?

Hunter

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf classification/status

Wolf management areas

Wolf hunting

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

Every GMU I've hunted, there's been a steady decline due to over population of predators, especially wolves and it's getting out of hand, less deer every year, less elk every year, even less grouse as well and I've seen an increase in wolf sightings and activities, I'm asking for special tags to be drawn for them so we can properly manage these predators like how we manage coyotes, cougars and bears
