WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Habitat connectivity

Please list other topics here. The next page provides space for general comments on the scope of the plan.

People and domestic livestock need to be managed much more than wildlife

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

We need to ensure healthy populations of wildlife, in all its forms. We need to NEVER use cyanide bombs and only humane, live trapping in order to move wildlife. As a scientist, I am disgusted by the use of cyanide and the prioritising of profits over wild places and wildlife.
