Wolf hunting

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

Other states, who have hunting seasons on wolves, has not put a damper on wolf recovery, as they are still reproducing at a very large yearly rate. Therefore, we should have wolf hunting in our state, to not only save our ungulates, but to put a little fear into the wolves to keep them away from human interaction. It is really sad to see cattlemen lose their cattle to wolves, when it is on private land that they own. It's just not right.
