WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf management areas

Wolf-livestock conflicts

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

It's time to strike a balance between wolves and cattle - killing wolves is NOT the answer. I would recommend that livestock not be allowed to graze on public lands where the conflict is occurring. It is public land and we need to use it more wisely...It is paramount that we get the wolf population up and protect this biodiversity!

Please, please, please help protect our beautiful (and necessary) Washington wolves!!
Thank you for listening!
