

Drew Thompson

What is your gender?

Non-binary/Third Gender

Age?

18

County (or Counties) of Primary Residence?

King County

Residential setting:

Suburban

Do you identify yourself as any of the following?

Environmentalist

Outdoor Recreationist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf interactions with other species

Land management

Habitat connectivity

Information and education

Research

Goals objectives strategies and tasks

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

I appreciate all of the work that has been done for wolves in Washington, with their population increasing every year. This work must continue even after Washington's wolves meet state and federal recovery goals. Wolves are important keystone species to preserve the environmental integrity of many natural environments and I hope that Washington will continue work to understand how they impact their environment as a top predator, and to continue conservation efforts.
