**Do you have general comments about the scope of Washington's updated wolf conservation and management plan?**

1. you're not listening to us. 2. there are too many wolves 3. wolves are legitimately being reported in areas WDFW doesn't know about or ...you disregard it. IMHO, presently the whole thing is not managed well and it's going to cost us a lot of Deer and Elk...which is tough enough to find and hunt today.
