

Kenneth Van Buren

What is your gender?

Male

Age?

73

County (or Counties) of Primary Residence?

Maricopa

Residential setting:

Suburban

Do you identify yourself as any of the following?

Environmentalist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf management areas

Wolf interactions with other species

Wolf hunting

Land management

Habitat connectivity

Information and education

Economic analysis

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

Humans have been placed on this Earth for the protection and preservation of Nature's resources, not to destroy and eliminate for unethical greed, profit, and self-satisfying hunting and enjoyment. Wolves, even though a species in the predator class, serve a vital role in the overall stability of the environment. And I remind you that humans are A PART OF, NOT SUPERIOR TO, other species. Government departments, therefore, have a moral and ethical responsibility to carry out their sworn duty. PLEASE DO YOUR JOB.
