Habitat connectivity

**Do you have general comments about the scope of Washington's updated wolf conservation and management plan?**

Do not take protection away from them because people are brutal any more, and that's not the way to manage our tax dollars that were spent to get them back here. If ranchers want their cattle in the wilderness areas, they need to have a plan for management for both the cattle & the wolves. Slaughters, like you've been doing are not right in any way.
