What is your gender?

Female

Age?

32

County (or Counties) of Primary Residence?

Sacramento, CA

Residential setting:

Suburban

Do you identify yourself as any of the following?

Environmentalist

Outdoor Recreationist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf classification/status

Wolf management areas

Wolf-livestock conflicts

Wolf-ungulate interactions

Wolf-human interactions

Wolf hunting

Land management

Habitat connectivity

Information and education

Research

Goals objectives strategies and tasks

Costs and funding priorities

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

I wanted to add my voice as a person who hopes you will consider the preservation/welfare of the wolves over the financial gains and greed of industrial farming. I hope you will consider preserving wild spaces over making room for further industrial sprawl. I hope you will consider these animals and how important they are to our environment, how they are innocent victims to our societal greed, and please do not delist wolves from state protection. Wolves need protection. They are not trophies nor are they violent threats to farmers. There are non-lethal methods to deter wolves from "livestock"; please act in a progressive, compassionate fashion and keep Washington wolves protected!
