Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

I think that wolves should not be delisted in Washington State. I think translocating packs (from high-density areas) to the Olympics and other areas where they have not been established (but previously/historically were). Wolf hunting should not be legalized under any circumstances. The WDFW and ranchers should work together to create a state-wide range-rider program with incentives for participating farms/ranches.
