

Paul Oursland

What is your gender?

Male

Age?

28

County (or Counties) of Primary Residence?

Adams & Kittitas

Residential setting:

Rural

Do you identify yourself as any of the following?

Environmentalist

Hunter

Outdoor Recreationist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf management areas

Wolf-ungulate interactions

Wolf hunting

Information and education

Research

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

It is important that residents and officials recognize wolves as a natural resource that needs to be managed. Also they are important to their ecological communities and play important roles. However, if they are not managed extreme damage can be done. Managing large mammal species with hunters and scientific research is a proven way for good results. Extirpation is not an option, management for sustainable numbers is.
