Urban

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf classification/status

Wolf management areas

Wolf-livestock conflicts

Wolf-ungulate interactions

Wolf-human interactions

Wolf hunting

Habitat connectivity

Information and education

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

It seem that the wolves should be left alone and the cattle ranchers use non-lethal and non-injurious methods to protect the cattle. Allowing cattle to roam on public lands seems wrong. The wolf population should regulate its numbers by the amount of food supply.
