What is your gender?

Male

Age?

68

County (or Counties) of Primary Residence?

Pierce

Residential setting:

Suburban

Do you identify yourself as any of the following?

Environmentalist

Outdoor Recreationist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf management areas

Wolf-ungulate interactions

Wolf interactions with other species

Land management

Habitat connectivity

Information and education

Research

Reporting and evaluation

Goals objectives strategies and tasks

Costs and funding priorities

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

I want to tell Washington state that wolves help our environment. They are top predators and are needed to control the surplus population of other wild animals. I understand they cause problems for farmers/ranchers by killing and eating their livestock, but if they have a livable and sizable habitat, they will stay away from the human population. Please let the wolves live. It could be appropriate to move them away from farm and ranch land.
