WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf management areas

Wolf-livestock conflicts

Land management

Habitat connectivity

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

I am strongly against any killing of wolves, especially due to interactions with livestock. We don't need more cattle and I believe there is evidence showing our current system of animal agriculture is extremely damaging to the environment, anyway. Wolves, on the other hand, are vitally important to normal ecosystems and should be supported.
