Economic analysis

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

It is clear, we are fast approaching the wolf recovery goals. Sadly, I expect the agreed upon recovery plan will be modified once the target numbers are reached. But for now, I'll maintain optimism that we stick to the original plan. There is no other option to manage the fast growing packs once the recovery goals are reached: controlled hunts and bag limits, just like many other species.
