What is your gender?

Male

Age?

65

County (or Counties) of Primary Residence?

Chelan

Residential setting:

Urban

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf-livestock conflicts

Translocation

Goals objectives strategies and tasks

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

Everett Burts from Wenatchee & J.D. King from Molt Montana are two individuals with extensive knowledge about wolves & you should solicit their opinions. The wrong species of wolves were introduced into the Northwest (Canadian Gray Wolf, C.I. occidentalis, C.I. columbianus or C.I. grizeoalbus). These subspecies are larger than the Timber Wolf (Canis lupus irremotus) and are not

indigenous to the lower 48 states. If the correct animals were originally introduced we would not have the big problem we currently enjoy.
